

## Product information: POLYETHYLENE SHEETS

### General information:

Polyethylene is an all-round industrial sheeting. The black sheets are UV-resistant.

### The material has the following qualities:

- Easy to cut, drill and weld
  - Suitable for indoor and outdoor applications
  - Very good chemical resistance
  - Reasonably long-wearing
  - Tough, somewhat greasy appearance
  - Very good electrical insulation properties
  - This sheet is optically less presentable, making it unsuited for decorative applications.
- Frequently used for its good qualities and price/quality ratio.

### Characteristics of the material:

Minimum and maximum temperatures for use: between -50 and +80 Celsius  
Length and width tolerance: +/- 1.0 mm

### Supply:

The sheeting can be supplied in black, and natural.  
Thicknesses in nature go from 1 to 35 mm.  
Standard size is 1000 x 500 mm, or 500 x 500 mm.  
Maximum length we can supply is 2000 mm. Maximum width is 1000 mm.

Should a different dimension or thickness be required, please mail us your requirements and we will make you a suitable offer.

### Applications:

- filters for ponds
- construction of tanks
- edges of borders
- rally cars
