

Product information: POLYPROPYLENE multiwall

General information:

Polypropylene (pp) is a synthetic duct sheet of versatile application

Polypropylene has the following qualities:

- Lightweight
- Very stable
- Very strong and tough
- Easy to punch, score or cut
- After scoring excellently hingeable
- Easily printed, the material has had a special treatment, making it suitable for printing. In the course of a few months this treatment wears off. Please, bear this in mind when printing is considered. We always supply new, recently treated pp film.
- The material has a very low surface tension, making gluing difficult. Pieces are often joined using press studs, wire, etc.

Characteristics of the material:

Minimum and maximum temperatures for use:	between -10 and +110 Celsius
Fit for foodstuffs	Yes
Length and width tolerance:	+/- 1.0 mm
Specific gravity:	0,92 gr/m ³

Supply:

Polypropylene duct sheet can be supplied in various kinds: white, black and transparent. Other colours on demand.

Standard size is 1400 x 1000, in sizeable quantities varying dimensions can be produced

Should a different dimension be required, please mail us your requirements and we will make you a suitable offer.
